

ABOUT ME

Hi, I'm Maya. and I'm running for the SU clubs and societies officer role. I play netball at home and with the social team here at Hartpury. I think being a part of a club or society makes student life significantly better and so I want to help people get involved.

Joining a club/society can be intimidating, especially when you might not have much experience. But I think its important that everyone, no matter how much or little you know, should feel like they are able to be involved in what they like. I hope that as well as helping to support clubs and societies, I can be someone who helps support those who need advice when signing up for a club/society.

OFFICER**

MY EXPERIENCE

COMMITTEE MEMBER FOR FNC

I am currently a member of my home netball team's committee and have been for a couple seasons. I believe this gives me good experience as it involves working in a team where everyone has different roles but is aiming to reach one specific goal. Being involved in meetings and the AGM has allowed me to grow in confidence when bringing ideas to the table.

SPORTS INVOLVEMENT

As a netball player, I know how important it is to connect with people through a shared passion such as sport. Having that time where you are able to take part in something you enjoy with others is one of those things which improves student experience. This is one of the reasons I want to encourage and support people in finding and creating clubs and societies that they feel a part of.

GOALS

STRENGTHEN SUPPORT:

I want to ensure that all clubs and societies feel supported by me. I will make sure I have set times each week where I am available for meetings if clubs feel they need to speak to me in person.

As well as looking into different funding opportunities and promote all the different clubs/societies so that they are able to grow and improve.

IMPROVE PARTICIPATION AND AWARENESS:

One of the ways I want to help increase participation is by showing more of what different clubs and societies do via social media. For example, sports training sessions or a society meet up looks like. Therefore, people have more of an idea of what they might get up to when they join.

REPRESENT STUDENT VOICES:

It's essential that the voices of those taking part in the clubs/societies are able to give feedback on what they think. Therefore, I would like to create an easy way for students to provide feedback.

IMPROVE INCLUSIVITY AND ACCESSIBILITY:

I will communicate with the inclusivity and wellbeing officer to help improve my understanding of how I can help make societies and clubs more welcoming to all.
